

PRICE LIST

Winvantage and AdvantageXpress Systems

Effective January 1, 2010

A full-featured, integrated, easy to use billing, accounting and management system. Along with the built-in case management system, it's a total, one-stop approach to running your office smoothly and efficiently. All the functionality – billing status, calendar, conflicts and client information is all in one place. You also have a personal dashboard at your fingertips to access everyday information.

Winvantage, our flagship system, can accommodate firms of up to 200 or more timekeepers. AdvantageXpress (AX) has the same features, but expressly limited to 3 users, with an excellent price point. AX users can grow into Winvantage seamlessly, without the need for data conversion or re-training.

	Base Price	Per-User Surcharge
